## Architectural Design Committee Contact Information

The Architectural Design Committee has developed guidelines to help property owners in the Cedron Creek Ranch Association determine the requirements for new home construction and/or new exterior projects. The Architectural Design Committee **must be informed** and the Architectural Change Request (form 101) **must be approved** by the Design Committee in writing, prior to any improvements being made to your property.

There are many questions regarding exterior home improvements and the Architectural Design Committee is always glad to help you to understand the Declaration of Covenants, Conditions, and Restrictions (Article VII).

If you are considering exterior home improvements, and are not certain if your project requires prior notification and approval, please be proactive and contact the Architectural Design Committee at P.O.Box 2420, Whitney TX 76691- e-mail: [ccrdesign@gmail.com](mailto:ccrdesign@gmail.com) – voice mail for Cedron Creek Ranch 254-707-2215.

We are a friendly organization and will be more than happy to make sure you have all of the information you need to make your project run smooth.
